Professional Summary

AI/ML-focused engineering graduate with hands-on experience in Python, Machine Learning, NLP, SQL, and AI application development. Built projects involving resume analysis, skill extraction, semantic text similarity, AI agents, and persistent memory systems. Strong foundation in Python, statistics, machine learning algorithms, data processing, and backend API development. Seeking an entry-level AI/ML Engineer or Machine Learning Engineer opportunity.

Education

- **Vaageswari college of Engineering**, India
B.Tech in Electronics and Communication Engineering GPA: 6.3/ 10 — Graduating Class of 2024
- **Vivekanand junior college**, India
Maths, Physucs and Science(MPC) CGPA: 951/ 1000 — 2020
- **Kerala Model School**, India
SSC (Class X) CGPA: 9.3/ 10 — 2018

Technical & Professional Skills

- **Programming Languages:** Python (Proficient), SQL (Strong Fundamentals), Java (Basics)
- **Machine Learning:** Scikit-learn, Supervised Learning, Unsupervised Learning, Feature Engineering, Model Evaluation
- **AI/NLP:** NLP, TF-IDF, Cosine Similarity, Text Classification, LLMs
- **Frameworks:** FastAPI, Django, Flask
- **Libraries:** Pandas, NumPy, NLTK, PyPDF
- **AI Tools:** LangChain, Ollama, OpenAI
- **Databases:** MySQL, SQLite, ChromaDB
- **Tools:** Git, GitHub, REST APIs
- **Soft Skills:** Quick Learner, Problem Solving, Effective Communication, Adaptability, Team Leadership.

Experience & Internships

Python Developer Intern

SkyBrisk | February 2026 – August 2026

- Successfully completed a six-month Python Developer Internship, gaining hands-on experience in Python development and application development.
- Worked on Python-based programming tasks and development activities in a professional environment.
- Applied Python programming concepts to develop and improve software solutions.
- Strengthened practical knowledge of Python development, debugging, and problem-solving.

Artificial Intelligence & Advanced Python Trainee

TechMindsparc Pvt. Ltd. | September 2024 – February 2025

- Completed training in Artificial Intelligence and Advanced Python through hands-on technical learning.
- Developed practical knowledge of Python programming and AI concepts.

- Worked with Python-based programming, problem-solving, and application development concepts.
- Strengthened foundations in Artificial Intelligence, Python, and related technologies.

Key Projects

- **CUSTOM AI AGENT**

Developed an AI agent capable of maintaining persistent conversational memory across interactions. Implemented memory extraction, similarity-based retrieval, and memory update mechanisms using Python and ChromaDB. Integrated an LLM with the agent to generate context-aware responses. Designed a memory management workflow to identify, store, update, and retrieve user-specific information.

- **AI JOB READINESS ANALYZER**

Developed an AI-powered resume analysis system to evaluate candidate readiness against job requirements. Implemented resume parsing and automated skill extraction from PDF and DOCX documents. Built skill-gap analysis to identify matched and missing job-specific skills. Implemented TF-IDF vectorization and cosine similarity to measure similarity between resumes and job descriptions. Developed REST APIs using FastAPI for resume analysis and scoring.

- **ONLINE LIBRARY MANAGEMENT SYSTEM**

Developed a full-stack library management system with RESTful APIs. Implemented user authentication, book management, and borrowing functionality. Built CRUD APIs for managing books and library records. Implemented role-based permissions for administrative operations. Integrated frontend and backend components through REST APIs.

Certifications

- **TechMindsparc PVT. Ltd:** Artificial Intelligence and Advanced Python
- **Skybrisk:** Completed The Python Developer Internship
- **Coursera:** Introduction to Python, Introduction to Java, Programming for Everybody.
- **JPMorgan Chase & Co:** Software Engineering Job Simulation

Key Achievements

- Hands-on experience developing AI/ML and Python-based applications.
- Strong interest in Artificial Intelligence, Machine Learning, and NLP.

Languages

English (Fluent), **Telugu** (Native)
